

# TEAM SCIENCE WEBINAR

## Building Bridges: Strengthening the Relationship Between Science and the Public

Science can transform lives—but its potential impact depends on public confidence and engagement in research. In an era of rapid technological advancements and shifting societal interests, how can research teams work together to make science more accessible, transparent, and trusted? This dynamic webinar explores how scientific collaboration can foster credibility, enhance communication, and build meaningful connections beyond traditional academic circles.

Thursday, March 20 at 12 PM ET.

**Cassandra R. Davis, Ph.D.** Assistant Professor of Public Policy; Center for Resilient Communities and the Environment, Institute for the Environment, UNC Chapel Hill

**Layla Dowdy, MBA** Director of Communications, Office of the Vice Chancellor for Research, UNC Chapel Hill
